

Making HIV Testing Routine: Lessons Learned

October 12, 2009

Audience: Administrators, nurses, physicians, educators, social workers, counselors

Registration: <http://careacttarget.org/hivtest.asp>

Purpose: To share lessons learned from administrators and clinicians about their experiences implementing routine HIV testing in various healthcare settings.

Objectives:

Administrators

By the end of this session, participants will be able to:

- Identify quality of care considerations for clinicians to address when implementing an opt-out HIV testing program in the healthcare practice setting, with special attention to the family planning clinic setting.
- Describe ethical concerns as they relate to opt-out HIV testing practices in various healthcare settings.
- Compare methods to assess system readiness to adopt change related to HIV testing in selected healthcare settings.
- Employ system readiness tools to implement an ED HIV screening program grounded in evidence based practice.

Clinicians

By the end of this session, participants will be able to:

- Review the 2006 CDC recommendations for HIV screening.
- Choose the appropriate HIV test based on the patient's clinical situation.
- Discuss two benefits of conducting rapid HIV testing in a primary care setting.
- Describe one strategy used in a healthcare setting to address barriers to implementing testing.

Webinar Presentation	
Administrators	Clinicians
Time: 11:00am-12:05pm CST 12:20pm- 1:25 pm CST	Time: 12:15pm-1:20pm CST 1:15pm-2:20pm CST
Facilitators: Ruth S. Buzi, LCSW, Ph.D. Glenn Raup, PhD, RN, NE-BC	Facilitator: Ron Wilcox, MD FAAP

Continuing Education

Nursing

Center for Health Training is an approved provider of continuing nursing education by the Washington State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Upon successful completion of each session of this educational activity 1 contact hour will be awarded, for a total of 2 contact hours for both sessions.

Successful completion of this continuing nursing education activity includes the following: attending the entire activity; completion of the activity sign-in form; and submission of a completed evaluation form.

CME

Center for Health Training designates this educational activity for a maximum of 1 AMA PRA Category 1 Credit™ for each session for a total of 2 AMA PRA Category 1 Credits™ for both sessions. Physicians should claim credit commensurate with the extent of their participation in the activity. This activity has been planned and implemented in accordance with the Institute of Medical Quality and the California Medical Association's CME Accreditation Standards (IMQ/CMA). CHT is accredited by IMQ/CMA for issuing AMA PRA Category 1 Credit(s)™ for physicians.

Social Work, LPC, Educators

The Center for Health Training is an approved provider of continuing education credits by: The Texas State Board of Social Worker Examiners, provider #1682, The Texas State Board of Examiners of Professional Counselors, provider #147, The Texas State Board for Educator Certification, provider #500701. www.sbec.state.tx.us

Upon successful completion of each session of this activity, 1 LPC contact hours, 0.1 Social Work CEUs, and 1 CPE clock hour will be awarded.

Please address all questions regarding continuing education to Allison Atterberry, RN at the Center for Health Training, (512) 474-2166 or by email at aatterberry@jba-cht.com.

Making HIV Testing Routine: Lessons Learned

October 12, 2009

Presenters

Glenn Raup PhD, RN, NE-BC
Assistant Professor, DNP program- Administration Track
Texas Christian University

Dr. Glenn Raup, at Texas Christian University, is currently an Assistant Professor in the Harris College of Nursing and Health Science. He has published multiple papers on leadership, disaster and trauma management. Within his area of academic teaching and research he focuses on the education of new and experienced nursing administrators as well as assessment of nursing leadership style in middle and executive administrators and its impact on staff retention and patient satisfaction. Prior to joining TCU, he was Senior Executive Director for Emergency and Trauma Services and in that capacity was responsible for the leadership and management of the John Peter Smith Hospital Emergency Department, Level II Trauma Center, Inmate Patient Admission unit, Chest Pain Unit as well as the hospital-based Urgent Care Center and held responsibility for the Correctional Health Service at four county jail facilities within Tarrant County. There were eight direct reports with over 450 FTEs in the Emergency and Trauma service line. During that time, he implemented the first Emergency Department routine HIV screening program in the state of Texas in 2005. The program served as the anchor for a large-scale, system implementation that has now extended to over 40 clinics within the county healthcare system. The ED's routine HIV screening program was implemented as a service line, value-added program that has demonstrated both quality improvement and cost savings.

Ruth Solomon-Buzi, LCSW, PhD
Assistant Professor and Social Services Coordinator
Baylor College of Medicine; Teen Health Clinic; Houston, TX.

Dr. Ruth Solomon-Buzi at Baylor College of Medicine, currently supervises social workers at different clinic sites, as well as participates in grant writing, program development, and research on adolescents' health issues. She previously taught program evaluation and health policy at Graduate School of Social Work, University of Houston. Dr Solomon-Buzi also worked as a Social Services Manager for "AMIDAR" (Israel Housing Company) for several years and as a research associate in a program designed to evaluate the implementation of new interventions to address social needs of families and adolescents at the University of Haifa, Israel. Dr Solomon-Buzi also has worked in planning and implementing nurturing programs designed to increase the social and educational skills of children from low-income families.

Making HIV Testing Routine: Lessons Learned

October 12, 2009

Presenters

Ronald D. Wilcox MD FAAP
Program Director and Principal Investigator Delta Region
AIDS Education & Training Center (AETC)

Dr. Wilcox is very active as a teaching faculty for the Louisiana LPS and is the administrative leader of the Regional AETC. Since Dr. Wilcox has assumed his current position with the AETC, special emphasis has been placed on outreach to minority providers and primary care providers and training of case managers to prepare them to function as medical case managers. In 2008, Dr. Wilcox received the federally-recognized AIDS Education & Training Center Award from HRSA for his work with HIV Education in LA, only the fifth person to receive this award. He has authored many articles and is the Executive Editor for the *HIV Clinician* periodical, produced by the Delta AETC Central Office. He is very involved with other parts of the Ryan White Programs, serving previously as the Vice Chairman of the New Orleans Planning Council (Part A) and currently the Chairperson for the New Orleans EMA Quality Improvement Committee and Medical Director for the FACES Program, the Part D program for Louisiana. Dr. Wilcox is also an Associate Professor of Internal Medicine and Pediatrics in the Section of Infectious Diseases and with the School of Public Health with the Louisiana State University Health Sciences Center in New Orleans.
